Paradisos del Sol Winery and Organic Vineyard

We believe we may be the first (perhaps only) estate winery on Earth producing ingredient-labeled wine from grapes grown with Zero Pesticides.

By learning from our predecessors from Pliny to Richard Smart, we have taken that knowledge to create a place and system that allows us to produce superb grapes for great wine without pesticides.

Can't decide which wines to buy, they all taste like Paradise?

Featuring:

PMS
Paul's Mocha Stuff

This wine's story began 20 years ago with some red wine. We decided to create a tawny-style wine infused with chocolate, coffee, and vanilla. Paul's Mocha Stuff was born, with chocolate in mind! After ten years in barrels, it was bottled in 2015. The wine continues to evolve in the bottle. Now PMS is ready to go out into the world and not just be good but **do** some good.

Recognizing the challenges homeless women face during "that time of the month," we wondered, "How can we help?" For every bottle of PMS that's sold, Paradisos del Sol will donate at least $4 (no strings attached) towards the purchase of menstrual supplies for women in homeless shelters.

INGREDIENTS: HAND-PICKED SUSTAINABLY GROWN GRAPES, UNAGED GRAPE BRANDY, COFFEE, CACAO, VANILLA, YEAST, POTASSIUM METABISULFITE. We also used blood, sweat, tears, love, and laughter in the growing, elevating, and bottling.

Retail Price $42, no discounts

We keep the first $10: our cash outlay for materials, warehouse charges, and grapes; we donate all of our labor. We make a negative profit on this wine.

The extra $32 goes for menstrual supplies for homeless women and girls and women in need.

When you pay $42 you will be funding Freedom Kits for four women. Each kit lasts between 3-5 years. If we get $42 a bottle, our hundred cases of this wine will fund over 4,000 Freedom Kits to share around Washington State.
